

Famac International Ltd is a UK based company with worldwide operations

Welcome to Famac International Ltd

Famac International Ltd is a UK based company with worldwide operations. Our areas of investment and interest vary from Education & Training Provision, International Education to Consultancy, Property and Strategic Procurement of Commodities and Consumables. We act on instructions from Governments, Government Agencies, Non-Governmental Agencies as well as established Companies.

In all of our business concerns we are committed, professional and dedicated to serving the needs of our clients wherever they may be. Operating from the United Kingdom, with a multi-lingual staff we are able to call on expertise and professionalism to ensure that business transactions are seamless, straightforward and successful.

We believe in building not just working relationships but personal relationships with all of our trading partners. Please look at our areas of operation to find out more about what we can offer you or your company.

Oil and Gas - Trading

Famac International Ltd works with leading Oil and Gas Companies and National Oil Companies to market Crude Oil and Refined Products. We act for both Sellers and Buyers and are able to work as mandated agents in the sale or procurement of Crude & Refined Products.

Oil and Gas - Technology

Famac International Ltd work with leading Oil and Gas Service Companies to market their advanced technologies. We have passion for the development of Smart Oil Field Concept with a particular emphasis on technology that helps streamline Oil and Gas Field Development, Drilling and Work Over Operations, Pipeline Security and Monitoring, Oil Well Integrity, Corrosion Monitoring, NORM Management as well as Enhanced Oil Recovery technologies to name but a few.

We have a particular passion for introducing advanced technology to countries where the traditional oil and gas extraction & production methods. With ever increasing challenges in the Carbon Based Fuels Industry leveraging technology to cut productions costs and optimize upstream processes makes sense. Working with leading partners in the world we can make this happen.

Oil and Gas - Drilling & Work Over Services

Oil and Gas - Drilling & Work Over Services

Famac International Ltd work with a leading US Based Drilling and Work Over Companies to provide a comprehensive Drilling and Work Over Management Service. Using state of the Art Rigs, we can provide a bespoke Drilling Support Package that will cut down on time, enhanced safety, sophisticated Environmental Management and above all at a Price that and above all at a competitive price.

Oil and Gas - Refining

Oil and Gas - Refining

Famac International Ltd work with leading Mirco-Refinery Manufacturers and Integrators. Our Small Refineries start from less than 100 BPD capability based on a flat bed truck to large 6000 BPD Refineries. All Refineries are Modular and fully automated and come with a range of packages that includes Large Crude Storage Tanks, Refined Product Storage Tanks, Piping, Accommodation for Workers, Control Room and Training and Support Package.

The fully Modular nature of the refineries makes them easy to deploy and are fully scalable so that multiple refineries can be added to the site to increase the refining capacity as and when needed.

Power Generation

Famac International Ltd has the ability to deliver on Power Generation Requirements. Whether it's a 250 Mw Power Barge or a 50 Mw Power Turbine, providing Emergency Back Up Power Generation is Simple, Quick and Cost Effective. Our Power Generation Units are Modular and Easy to Transport. We will work with the Customer to identify their need and supply the Power Generation Capacity to meet their needs, every time.

Education & Training

Famac International Ltd has invested in Private College & Training Colleges and Companies based in the United Kingdom.

The colleges are fully accredited and registered with the UK Border Agency. The focus of the Colleges is on the multi-billion dollar International Student Market. The Education & Training Investments are an example of the company's forward thinking and long term strategic vision. Plans are in place to extend the current centers in the United Kingdom with Centre's in MENA and South Asia Region.

Working in Partnership with leading Awarding Bodies and Universities the Centers add a new dimension to the provision of Further and Higher Education for the discerning Student.

We specialize in Oil and Gas Training. Working with leading Colleges and Private Centers we can provide Oil and Gas Training Services in a wide range of Areas of Operation from Drilling to Work Over, Down Hole Technology to Pipeline and Integrity Management.

Our Courses are delivered by experts in the field at state of the start centers. Alternatively Companies can book our trainers to deliver the training at their own Sites or Offices anywhere in the world.

Property

Careful and planned investment in the property sector is still a cornerstone of a well balanced investment regime. Famac International is no different. We continue to invest and trade in commercial and residential real estate in South Asia and Europe. We regularly act for private buyers and investors looking to purchase prime real estate in the some of the most sought after locations around the world.

We are consulted by Private Buyers, Charity Groups, Investors and Sovereign Wealth Funds when it comes to investment in Property Development in the UK and European Markets.

Strategic Procurement

We act on behalf of Governments directly and indirectly through Government Agencies in the procurement of Food Stuffs, Drugs & Pharmaceutical Supplies, Industrial & Agricultural Machinery, and Construction Supplies.

Working with Partners we also provide Risk Management Solutions to the Oil and Gas Sector including:

1. Field Support
2. Oil Field Security Management
3. Pipeline Monitoring and Security
4. Emergency Response
5. Integrated Security Services of Plant, Personnel and Property
6. Specialist Data Security and Management Services including Disaster Recovery Planning and Support

We have an excellent and proven track record of providing professional and reliable advice and service.

We welcome the opportunity to be able to demonstrate the same to you.
